## **DETAILED ACTION**

### ***Reasons for Allowance***

Claim 1 is allowed. Applicant amended the claims to include a range of values for a variable  $\mu = \frac{n_{particles}}{n_{core}} - 1$ . This range is not taught by the Blyler reference or any other relevant prior art of record. Further, since there is not teaching, suggestion or motivation of this variable being a result-effective variable in the context of this invention, it is the examiner's opinion that the prior art of record, taken alone or in combination, fails to disclose or render obvious the range as specified, in combination with the rest of the limitations of the base claim.

Claims 2-4 and 7-41 are allowed as being dependent upon an allowed claim.

### ***Conclusion***
